

## Chemistry

### Study program: Ecology and environmental protection

*Qualification level: Bachelor*

No	Subject	Semester / Year of study	Credits
1.	Ecological aspects of chemical technology		5
2.	Urban ecology with the basics of environmental monitoring		4
3.	Environmentally friendly energy		6
4.	Basics of Ecology		3,5
5.	Groundwater of Transcarpathia and preservation of their healing potential		6
6.	Environmental activities in education and science		5,5
7.	Sustainable development strategy		4
8.	Chemistry with the basics of biogeochemistry		11
9.	Human ecology		3
10.	Urban ecology		6
11.	General ecology (and neoecology)		5
12.	Inorganic chemistry		4
